Health Service For Glades Available At Local Hospitals

Ernest H. Fiedler Succeeds O. Dry As Superintendent At Belle Glade Hospital

A new general superintendent now in charge of the Belle Glade Hospital, as Ernest H. Fiedler, has succeeded L. O. Dry, in that administrative position. Mr. Fiedler came here from Punta Gorda, where for several years past he has held a similar position with the hospital there.

Mr. Fiedler states that his new work here, and is most proud to be the head of such a fine hospital as exists here in Belle Glade. That it will be his intent to still make it a more outstanding institution as new services can be introduced for which need of hospital patrons. Mr. Dry will continue on as an advisor until he gets his orders of assignment for the new hospital.

Mr. Dry states that his retirement here is regretful to him, as he has had pleasant relations to the hospital and with the citizens of the Glades, and especially liked the fishing facilities so handy.

Mr. Dry states that the citizens of the Glades are fortunate that the Hospital has been able to get a connection with the Mater Hospital and the Glades Department, with its excellent program for public service. Since the 23rd, of February, when the service became effective here, there have been 65 births at the hospital, 19 white and 46 colored, the greatest majority of which were under the MCH program. Under this plan the hospital is able to have a full time obstetrician, and a part time pediatrician, and a former being Dr. H. R. Hing and the latter Dr. Levinson, formerly connected with the hospital at West Palm Beach, who alternate Thursday these men are on duty in Belle Glade and the Glades Hospitals for consultation.

Under the Social Service Department, persons who may desire information may consult Mrs. Mary at the Belle Glade Hospital, phone 57, or Mrs. Larimore, at Pahokee, phone 185. Their aid territory extends from the Glades to the lake to Lakeland. If after interviews, persons are found eligible, they will be certified and sent to the Glades Hospital for treatment or medical care. All such assignments must be made by a Public Health Official, and the patient must be at Camp Osceola and for the colored at Camp Okechobee.

The Palm Beach Crippled Children's Clinic is also participating its work with the Belle Glade Hospital, and two nurses spend a day a week at the two hospitals on Thursdays in the Glades. The clinic requires attention and service as well as to investigate new cases, but these nurses care for the patients each trip, both white and colored.

The outline of the above services available shows that the health program in the Glades is advancing. With the coming of the new County County Health Officer, Dr. Austin, further health programs of service will likely be introduced.

Scottish Rite Body To Celebrate Its 25th Anniversary

Announcement was made by officials of Lake Worth Scottish Rite Chapter, No. 1, at the spring reunion, that the 25th anniversary of the Consistory, would be celebrated in a large way, taking place on the three week ends from October 15 to November 1, when aims will be made to have a class of candidates for grade adoption.

Ever since the disastrous hurricanes of 1926 and 1928, when the town of Lake Worth was laid to waste, the Consistory had been in the process of rebuilding. At the fall reunion, that there will be a mortgage burning celebration, as the debt obligation will have been met by that time.

Considerable change in inter-

25 College Students Receive Herald Free

Now that the local girls and boys are soon returning to the homes for the holidays, we are preparing to remove from our mailing lists the names of 25 to whom we have been mailing the paper free.

If any from this community have failed to get the paper, it is because they have been inadvertently left off and relatives and friends failed to remind us.

Don't forget to leave the name before beginning of next college year.

John L. Evans Is New President Of Cattleman Assn.

At a regular meeting of the P. C. of C. at the Glades on Tuesday night, John L. Evans was elected to serve as President, to succeed Little Doc Van Landingham.

The meeting voted unanimously to sponsor calf raising by members of the FFA, 4-H Club, and the Cattleman Assn. The membership agreed to furnish as a started, 12 calves to boys selected by a committee of the hospital and the Glades and the Kidder of the Experiment Station project members. The purpose of this project is to increase interest in cattle breeding and fattening generally.

Discussions were had among the membership about production of feeded steers in the Glades, because of the scarcity of those. Then there were substantial arguments by Little Doc and Mrs. Wedgworth in favor of raising steers locally because of the general average of 200 pounds better for locally produced against those from other parts of the State.

It was agreed that for the present both methods—important and raising locally—would be necessary.

Definite convictions favorable to breeding in the Glades were voiced by several. Breeding is practical and profitable in the Glades was the expression of several who have done this for several years.

Putting In Manhole Pits

The Southern Bell Telephone has about completed work of installing a series of manholes about the city, as a part of the new cable system which will be installed, which figures in the new central building on West Second street. Cable crews are installing cable, and the work is being done westward to Belle Glade.

Ed Wilson Transferred

Edwin Wilson, who has been the popular and genial manager of the Lindsey Lumber Company, has been transferred to like duties at the company's branch at West Palm Beach. Mr. Wilson has been assigned to the duties formerly performed by Mr. Wilson.

Final Matches To Be Played Sunday In Golf Tourney

All Country Club members are reminded to attend the dance at the club house this Saturday night and bring your guests. Music will be furnished by the band. The program is a good one, and it is in the making.

At the Board of Directors meeting on Tuesday night, it was decided to turn the club house over to the teen agers Friday night during the summer. This program for the teen agers will be sponsored and chaperoned by some local civic organization which is being formed. It was also decided that a high school golf team will be formed. All persons wishing to attend the golf tournament at the club house, will be requested to make their reservations with Mike at the bar, as no one will be served without them.

The golf tournament at the club house, will be held on Friday night, June 5, 1948.

Sponsors-Players Chosen For Soft Ball League Here

Six Teams Selected To Play Games Three Nights A Week At Memorial Field

Coach W. H. Cook, who is in charge of the Educational and Athletic Recreation program for the city, on Monday night, met with the sponsors of teams, and drew from the "pot" the names of the sponsors and players for each of the respective teams.

The sponsors will form the Governing body, and will prepare the rules and regulations and supervise the schedule, while the players will play on Tuesday, Thursday and Friday nights, likely starting at 8 o'clock. In order to finance the program the modest sum of one dime will be charged all players and patrons, but there will be a dollar's worth of prizes enjoyed, with a double header each night.

The season will be in two parts. The first half there will be two games between each team of the league, to be duplicated in the second quarter. Following the first half, the assignment of players for the first quarter has been formulated. (Continued on Page 2)

Beitner Now Has Second Model Store

Lou Beitner, the Home Town hardware store proprietor, who recently purchased the Multrap department store on West Avenue A, has made a new assortment and department assignment of players for the first quarter has been formulated. (Continued on Page 2)

Quartet Made New Elks

The present officer of Belle Glade Lodge of Elks at the meeting on Monday night, made an excellent address on the conferring of the degree work, and did a very commendable explanation, with Ralph Kirk, who is the new master, and P. Eaden, as the class candidates.

South Fla. Cattle Business To Rival Texas Says Bronson

Irlo Bronson, a member of the Florida House, from Osceola, and President of the Florida Cattleman's Association, and owner of large ranches in that territory, stated: "Florida is just entering the upper bracket of states known for the cattle raising, and it will lead in the future, with the own making. With the Mexico ban continued, the states are reminded to attend the duty for producing range or better type of cattle, to supply the feeder market reaching up to the market for the export. There are only two main locations, that of Texas and South Florida, and the latter in many ways has the advantage. It is here that we must have forage crops and means of producing crops for our feeds in addition to the hay which is known at our door."

Mock Off Cane And Crutches

Deputy Constable Raymond Moore, who is the only one received in an auto accident, is now able to move about his Chosen home without cane or crutches, and is leaning how to motivate on his own feet.

New Store Hours

Royal's store, on West Avenue A, is announcing new store hours for the summer months. The store will be open on Thursday and Fridays, 8 A. M. to 6 P. M.; Wednesday 8 A. M. to 12:30; Saturdays, 8 A. M. to 9:30 P. M.

Robert Dexter Goes From Hospital To Jail

Robert Dexter, the colored driver of a farm truck for the Hufty farms, who was found responsible for the accident on the Palm Beach road, which resulted in the death of Dr. T. A. Hart, of Danbury, Conn., on March 23rd, and who has been a patient at the Belle Glade Hospital since that time, this week, was turned over to county law officers, and was taken to West Palm Beach to await court action there.

Dexter was so badly injured in the accident that his life was precarious, but recovered, and after submitted to an operation for the amputation of his arm.

Dr. Hart, a retired dentist of Danbury, was driving out from the Belle Glade Hospital, on the truck driven by Dexter, piled in on his vehicle, demolishing the car, and injuring a number of negro laborers riding in the rear of the Hufty truck.

Howard Hill And Chas. McCurdy Awarded 4-H Course At University

Two Glades boys, out of five for the County, have been awarded a week's 4-H Short Course in Gainesville for outstanding work with their 4-H projects, which were in both cases, raising beef cattle. These selections are made on the basis of record of work accomplished in the chosen field. The boys will be housed in the College dormitories and fed at the dining hall, and instruction will be by college teachers. Recreation will also be given attention for the visiting 4-Hers.

Friedheim Sisters Draw Scholarships In State Contest

Mr. and Mrs. Joe Friedheim, of this city, recently rejoice over the scholastic attainments of their daughters, the Misses Mary Louise and Helen Louise Friedheim, who won classic awards, in a state wide examination contest, conducted by the State Board of Public Instruction.

Some 293 graduates and college students took these examinations, and 94 scholarships were awarded. The girls, who are now in the West Palm Beach, two to Belle Glade, and one to Pahokee.

These scholarships are valued at from \$200 up to \$400 a year for four years, and recipients may use them in preparing for the teaching profession or government, administrative course, or some state supported college.

Miss Mary Louise Friedheim, a graduate of the local high school and now a sophomore at the University of Florida, has, this year, took the tests at West Palm Beach, and was awarded a State Donor scholarship. Both girls are members of the 9th grade here, were awarded American Legion honors.

Miss Lydia H. Howes, of Pahokee, took the scholarship award, is a senior student in the Pahokee school, and is the daughter of Rev. and Mrs. Howes, pastor of the Pahokee Methodist Church, and is a very versatile young woman.

Under the working of the Lewis and Clark scholarship holder, gives a promissory note, one each for four years, and as each year's work is completed the scholarship holder, who is the daughter of the late Mr. Lewis, the note for that year is cancelled.

Wrecking Chevrolet Building

Workmen are wrecking the south portion of the Glades Chevrolet building on South Main street, preparatory to the erection of a fine business block by the Riell-Crews interests.

Ramie Program Is Given Substantial Help In Degumming

Experimenting Takes Step In Major Factor Of Industry

Decorticated ramie without degumming might be compared to a modern home laundry machine without water available. Degumming, as a commercial venture, is commonly accepted, with arguments in favor of several machines operating in the degumming process. The degumming is being done at Canal Point, with Jack Dempsey in charge, is the only substantial commercial degumming has been accomplished in the United States, as well as the near and far East and Europe. The quality of the fiber resulting from the operation and a dependable grading of degummed ramie have been a problem.

The present world price of degummed ramie is from 70 to 80 cents. There is a difference between decorticated and degummed ramie of 40 cents per pound or \$800 per ton. With an estimated 1200 ton production by this one firm, there is an increase of the value of Glades products of approximately \$1,000,000 annually.

Those in the know confidently predict from ten to twenty times this volume of ramie needed to supply normal demand when the entire ago-industrialization of ramie has been assured.

Ten to twenty million increase in the value of agricultural products, with the volume of five to eight years, in ONE CROP, is a step very few areas within the world can contemplate.

Remember, under present operations, a ton of decorticated ramie ribbons is expected per acre, with 1800 to 2000 pounds of three tons of ramie meal worth \$40 per ton, of \$120 per acre. Ribbons and meal, per acre per acre, is \$720 to \$800 per acre. In addition to the above government-like figures used in the estimates.

"DON'T SELL RAMIE IN THE GLADES SHORT, AND DON'T BUY 'A PIG IN A POKE' IN INVESTING EITHER."

Fishermen Win A Bout In A Stiff Court Battle

The six commercial fishermen of Moore Haven, who were arrested by Game Wardens at Lakeland, two weeks ago, for alleged illegal seining for fish, were released by the court in Judge Cowley's court on Monday, and were able to score a temporary victory, the court ruling in their favor, and their long siege of legal battles.

A jury was empaneled, and the counsel for both sides put forth a battle with much of the evidence, and the ruling in Judge Cowley's court on Monday, and were able to score a temporary victory, the court ruling in their favor, and their long siege of legal battles.

Wrecking Chevrolet Building

Workmen are wrecking the south portion of the Glades Chevrolet building on South Main street, preparatory to the erection of a fine business block by the Riell-Crews interests.

Forestry And Grass Experiments Are Good

Working with Louis T. Neill, and of the State Forestry Department, Ben Hill Griffin, a Hardee farmer, is working on a reforestation plan of timber, grazing and game project. Two years ago he planted 100,000 pine seedlings, and by careful inspection, reports that he has not lost a tree. He plans to plant 100,000 trees until 1951, as by so doing he saves pasture, builds up the soil and has a potential lumber supply coming on for future cutting.

Orange county dairymen have been experimenting with White Dutch clover planting. George Torrey planted 100 acres the past season, and got such excellent and satisfactory results that he is planning on planting 1000 acres on former carpet grass pastures this fall.

Alsapugh Property Purchased For Business

As the result of a business deal consummated, Mrs. Helen Alsapugh has purchased the West Avenue A property to Marvin Hendry Jr., who plans extensive improvements on the property, which consists of the choice locations on that business thoroughfare.

Mr. Hendry states that his plan for the property, include the renovating of the existing frame building, and the placing of an addition to the front porch, and the building of the lower floor for the business and the upper floor for a modern rooming hotel.

Commissioners Act On Scarborough's Resignation

The City Commission, meeting in session on Wednesday night, considered the resignation of Commissioner George Scarborough, submitted some ten days ago, and without discussion, accepted same, to be effective on June 16th. This action was taken, with the understanding of holding a special election to choose a successor prior to the regular September election.

Mr. Scarborough, who has been in the city for some time, was not at the session.

W. H. Cook, appeared before the Commission, with the Educational Recreation program proposed by the State Board of Education, and made request for funds for its operation. The Commission, after a discussion of \$750 from city budget funds, for the financing of the program. Whatever equipment is purchased, will be again at the school desk in his father's pharmacy.

Don't Sell The Glades Short!

In these days following a not-too-good farming season in which we have seen a flood devastate the fall crops, and demands for crops indifferent, as a whole, it is well to take stock.

Dismissing the winter weather and its probable effects, what we have to expect in the next decade?

There are three agricultural industries, in each of which practical farmers have demonstrated potential values of ten to twenty millions annually to the Glades; beef, cattle feeds and ramie, each complementary to the other.

No more convincing arguments are necessary to beef—both breeding and finishing—of the Everglades Experiment Station, of 1100 to 1300 pounds of beef per acre yearly on adapted grasses, gains of 1.87 pounds daily on grass fed steers with Glades-grown cracked corn supplement, and records of an average 200 pounds more weight on 2-year-old Glades grown steers, against imported ones. These records are substantiated in pastures by local cattleman.

Balanced poultry, dairy and beef cattle feed is a proven natural for the Glades. The range of Nature in growing ramie of a quality and quantity unexcelled. Textile silk, linen, rayon and cotton—are benefited by varying amounts of ramie; cigarette paper unequalled quality is made from ramie fiber; aviation and numerous auxiliary lines, here for fire fighting, Navy, in stern wheel packing and cordage, are voracious users of ramie fiber.

With decorticated and degumming reaching a stage of practical economical mass production, and the Glades unexcelled in quality and quantity of ramie production, ramie can be a capital investment, labor pay rolls, taxes, and growth to the Glades.

Beef Production In Glades Proven On Substantial Basis Thru Experiments At Station

Prof. Speer Addresses Lions

H. L. Speer, assistant county agent, was the speaker before the Lions' club at its latest meeting, in which he spoke on "Florida's Resources and Geographical Location". He spoke from an Agriculture and Land viewpoint, setting forth our favorable location for winter vegetable growing, favorable temperatures, and productive land. He also cited some of the information on Glades beef production in 1945.

Especially interesting was his description of how the lands of the state had been surveyed out in townships, six miles square, then into sections and their divisions.

Beeman Exposes Body For Bees To Mass Upon

Results of carrying capacity and beef production on various grasses with St. Augustine lead to bold hopes for the future. The results of carrying capacity and beef production on various grasses with St. Augustine lead to bold hopes for the future.

Mr. Kidder gave the results of carrying capacity and beef production on various grasses with St. Augustine lead to bold hopes for the future. The results of carrying capacity and beef production on various grasses with St. Augustine lead to bold hopes for the future.

Hubbard or hosting honey bees is not an avocation that many men like to fool around with expert assistance, for there is a lot of stinging possibilities, unless one has the art of knowing how to handle the bees.

W. C. Markham has been working around bees most of his life, but it was not until he became a beekeeper that he became active in the bee and honey business, and placing his honey Continued on page 5

Back Home From Atlanta

Joe Murphy, who has been in the city for some time, was not at the session. He is now back home from Atlanta, where he has been working on his father's pharmacy.

Observation And Comment

By John M. Gledhill

Two old time pro-war table favorites are again back on the shelves of local merchants. Canned Corned Beef and real Tapioca for eating. Neither has had a taste, at all.

Everyone seems happy that the recent strenuous election, period is over. Favored nerves can get rested up, and there will be no more wild election rumors to discuss.

If those east coast inspectors came out to Belle Glade expecting to find irregularities in the election, they will be disappointed. The election was conducted here, they must have gone back to their camp, very much disgusted, for they found no occasion to find fault.

G. I. Evans certainly had the situation under full control, and had a corps of mighty good election officers. They have been the supervisor of all election here since the town had a voting precinct.

Hundreds Of Visitors Join Local Farmers In Informative Field Day

Rarely do "field days" draw as many people as the one held at the Experiment Station, Thursday afternoon, when more than 200 persons from Southeast Florida listened, took copious notes and devoted themselves to absorbing information on Glades beef production, both current and the immediate future.

A combination of professional technicians and scientists combined with practical cattle men to discuss approvingly the "rarely suspected potentialities" of beef production in the Muck lands of Florida.

Internationally recognized authorities joined national figures to bold hopes for the future. The results of carrying capacity and beef production on various grasses with St. Augustine lead to bold hopes for the future.

Mr. Kidder gave the results of carrying capacity and beef production on various grasses with St. Augustine lead to bold hopes for the future. The results of carrying capacity and beef production on various grasses with St. Augustine lead to bold hopes for the future.

Earwoods Change Residence

Mr. and Mrs. Henry O. Earwoods have moved their residence from the Rader property on the South Canal Road, to one of the Hooker apartments at Chesapeake. Mr. Earwood soon leaves for Gainesville, where he will take up post graduate work at the University of Florida.

NEWS VIEWS

By E. B. Dwyer
This is the month of June. It is an annual affair that is as regular as the return of the seasons. It is also the month of June. It is a time when the public is reminded of the fact that the world is a better place than it looks.

Master And Wardens To Meet In Lake Worth

Belle Glade Lodge, No. 273, F. and A. M., held regular communication on Tuesday night, May 18th, with Senior Warden L. E. Will presiding in the absence of Worshipful Master John Kirk.

A number of new petitions were presented. Report was made that the Master and Wardens' Association held at Ft. Pierce, last Friday night, was well attended, with plans made for reorganizing some feature of its work for the coming season. The next meeting of this Association will be held in Lake Worth the third Friday night of June.

Guests Tendered Barbecue Feasts

The City Ice and Fuel Company, on last Saturday afternoon, extended an appreciation party to its Glades employees and its patrons, and invited friends, at the Legion Hall, some 350 accepting the invitation. The late hours of the afternoon were spent in social converse, and then at 5 o'clock all were invited to line up and secure plates of delicious and succulent roast pork and pork barbecue and other

Radar Functioning Explained To Rotarians

The possibility of directional transmission of long distance messages, without the use of wires, was discussed before members of the Rotary Club recently by Lt. Stephens, of the Southern Bell Telephone and Telegraph Company.

The new system of long distance transmission is a direct application of the results of wartime research to the uses of peace. Mr. Stephens pointed out that in any emergency, a mental basis between New York and Boston, the new system is capable of handling hundreds of simultaneous telephone calls and provides sufficient communication channels to transmit television, he said. It employs radio waves of extreme shortness, similar to those developed for radar during the war, and would operate along a series of narrow beams of the waves directed between towers erected between two distant cities.

Demonstrated before the Rotary Club, speech and music were transmitted between two miniature towers, and in another series of demonstrations with the equipment. Mr. Stephens illustrated some of the unusual characteristics of the extremely short waves that made them of the use of radar. A wave beam transmitting music was reflected against various objects, and the use of wave guides, to transmit the waves from generating equipment to antennas, and the polarized action of the waves, which made possible the construction of listening devices and apparatus for airplanes and the mastheads of ships, were illustrated.

Mr. Stephens also traced the preparer research work of the telephone organization in the use of short waves for communication, which led directly into research in radar. Radar was not a Bell System development, he said, much of the fundamental research that made it an effective military weapon was the work of the Bell Telephone Laboratories, and about half of the radar sets delivered to the armed forces were manufactured by the Western Electric Company, the manufacturing branch of the Bell Company.

MARINE RECRUITER HERE REGULARLY

Tech. Sgt. Lee M. Mooney, itinerant Marine Recruiter spent from Tuesday through Friday in Belle Glade and announced that he will return at regular intervals.

With his headquarters in Miami, Mooney will visit Belle Glade on the third Tuesday of every month for a five-day stay. He said today that his office wants to acquaint every young man of the Belle Glade area with the opportunities offered by an enlistment in the Marines.

Mooney has complete information on the enlistment of former Marines who wish to come back in the Corps. Under present regulations, he said, they may return to the Marine Corps within two years with little loss of rank. Of particular interest to neophyte Leathernecks is the Marine Corps promotion system, whereby a man may be promoted to the rank of private first class immediately upon satisfactory completion of his initial training. All men in the Belle Glade area are sent to Parris Island, S. C. for this training.

Young men who desire additional information about the Marines after Mooney leaves Saturday night should write or visit the Marine Corps Office, Post Office Building, Miami, he said.

Master And Wardens To Meet In Lake Worth

Belle Glade Lodge, No. 273, F. and A. M., held regular communication on Tuesday night, May 18th, with Senior Warden L. E. Will presiding in the absence of Worshipful Master John Kirk.

A number of new petitions were presented. Report was made that the Master and Wardens' Association held at Ft. Pierce, last Friday night, was well attended, with plans made for reorganizing some feature of its work for the coming season. The next meeting of this Association will be held in Lake Worth the third Friday night of June.

Guests Tendered Barbecue Feasts

The City Ice and Fuel Company, on last Saturday afternoon, extended an appreciation party to its Glades employees and its patrons, and invited friends, at the Legion Hall, some 350 accepting the invitation. The late hours of the afternoon were spent in social converse, and then at 5 o'clock all were invited to line up and secure plates of delicious and succulent roast pork and pork barbecue and other

viands. Everyone had a good time and the guests showed appreciation of the company's hospitality.

The Elks open house and barbecue on Saturday afternoon was very well attended, and the chefs turned out viands that pleased all, especially the blended meats.

Bolton Attends Ford Party At Atlantic City

Charles Bolton, of the Belle Glade Motors Corporation, spent last week in Atlantic City, N. J., where the Ford Motor Company entertained some 1,000 dealers and salesmen from the Southeastern States Territory. At the mammoth armory of the company made a display of its new 1949 passenger car, in various designs, and made demonstration as to construction and maintenance. Bolton states that agents were most enthusiastic over the new Ford and its placement on the market.

He expects to have a local display here in Belle Glade in the very near future.

Hendry County Elect Clewiston Candidates

Political office faces in Hendry county will be changed considerably after the first of next year, as a result of the recent election, and most of the new people will come from Clewiston. Coburn Moore was elected clerk of courts; Mrs. Agnes Yates, superintendent of public instruction; A. O. Ward, tax collector; Harry Johnson, assessor; James Davis, constable while Bill Maddox retains his sheriff job and Dennis Smith retains his seat as tax assessor.

Over in Okeechobee county, N. O. Stewart was elected sheriff, and over in Ocoola county, Young Tindall, defeated Bob Buckles for sheriff. This will be Tindall's sixth successive

term. J. J. Wiggins, who has been sheriff in Glades county for 20 years, was pushed aside by C. S. Pressley.

Seascouts To Take Cruise

The Seascouts of Palm Beach county, are all going over the forthcoming sea cruise which will be taken on June 5-6, from West Palm Beach to Miami and return. The cruise will be sponsored by the Navy and the Navy Reserve Officers. Their vessel will be a PC boat in command of Lt. George Trask. An active program of training will be staged on board for the 50 or more Senior Scouts who will make this trip, including those members of the Senior Scouts of Belle Glade: Shelly Connell, director, Henry Fears, Howard Hill, Roland Whisk, James Herring, John Breger, Billy Ray Evans, Topsy John Breger and Bill Pope.

Fall Bean Seed Too Scarce And Costly
State Local Dealers

Local seedmen, who supply most of the seed for crop planting, state that the outlook for fall bean planting seed, is very discouraging, as the supply is short and way under the normal customary requirements. Local farmers who can save spot seed will be the fortunate ones and the ones who will be able to plant fall crops without a bit of retrenchment. Fall bean seed at the present quotation price will likely run about 30c a pound, a high record for this locality.

Rain And Hail Visit Glades

A heavy rain and windstorm struck the Pahokee-Belle Glade sector late Saturday afternoon, which stirred up things considerably. At Pahokee, a heavy hail storm was experienced, with stones ranging from pea size to that of walnuts.

Gone To New Fields

Maurice Shulman, who has spent the past season in Belle Glade, as a commercial agent, on last Saturday, left for Macon, Ga., where he will spend most of the summer handling peach crop shipments.

Farm Tenament Consumed

A small tenament home owned by Waldemere Tew, located northeast of the city, out on the farm lands, in some mysterious manner caught fire, Saturday afternoon, and with contents, burned to the ground. The Everglades Fire Control firemen made the run but could save nothing owing to heat of the blaze. Mr. Tew's erected the structure for his pump man, who was away from home at the time of the blaze.

Road Detour Lifted

The long detour on Road 80 from LaBelle to Buckingham, has now been raised by the State Road department, and there is now direct connection into Ft. Myers.

To you my good friends and supporters who so staunchly supported me in my campaign, I want to extend my deep and heartfelt thanks. Your loyalty will always be an inspiration to me. No candidate, winner or loser, ever had a finer group of supporters.

All of us can be proud of the principles of good government for which we stand.

I know you will not lose your interest or your faith in the principles of sound, practical, businesslike administration of public affairs.

Please be assured that I shall always remember your loyalty.

Geoges Eligible For Unemployment Pay July 1st, Next Year

Under the GI Bill of Rights Veterans are eligible to draw unemployment allowances for employment when they are out of work through no fault of their own, are fully able to work, and have been unemployed for a period of time and have registered for work with the Florida Service. During the week ending May 24, 1948, 4,114 Veterans drew Readjustment Allowance in the Belle Glade office.

In the same period three persons drew Unemployment Compensation under the Social Security Act and the Florida State Law.

Mr. A. M. Larrimore, Manager of the local Florida State Employment Service, urges employers to take advantage of the service offered by this office by listing their needs for employees, either permanent or temporary.

Georgians Enjoy Local Fishing

Robert Martin, of Athens, Ga., and Melton Martin, of Rabin, Ga., spent the past week as guests in the home of Supt. and Mrs. D. W. of the Belle Glade Hospital. The men were much interested in the fishing conditions here, and enjoyed some good bass fishing on Lake Okechobee under the guidance of City Clerk A. L. Wallace.

New Pitches On Market

One of the season's Georgia pitches arrived in the local market the first of the week. The pitch was not so prevalent as was that of the silver ball to purchase them.

FINAL MATCHES TO

(Continued From Page 1)
Country Club is in its final week and all matches will be played by Sunday. The match will be played on Sunday as the Glades tournament and a tournament at the Palm Beach Country Club. As they are both scheduled to be played the same day, however, matches in the regular season will be played on Sunday and the awarding of titles will take place Sunday night.

COMMISSIONERS
Continued from page 1
of the city for use in other seasons.

Heading a quartet of women from the Professional Women's club, and acting as the spokesman, Miss Sara Creech, spoke along Health line subjects, and the necessity of another city wide cleanup, and the providing for sufficient dusting to keep down mosquitoes, flies and other insects.

She stated that mothers of school children were considerably disturbed with the occurrence of sickness among children, with intestinal trouble, which was coming from a source of contamination likely not from the same source, because the cases were so much scattered. She demanded it was, and asked the city to make investigation as to the source of this malady.

Tom Griffin, hotel inspector, was present and told of what he had discovered as to sanitary conditions in the city, and his effort to keep districts under control. He stated that conditions were far better than last year, especially in connection with the sanitary conditions within the tenement houses.

The Town of South Bay requested the City to put in its master water meter at Indian mound, so that the work on the former's distributing system might go forward. This request will be granted.

Fire Chief Will presented to the commission a tentative schedule of department organization and wages for the coming year. This program provided not only for the present set up, but for the future as well, as the city and department grows. The request was adopted, and so far as any provisions revert back to April 1st, so far as wages of present employees are concerned, based on a full time employment basis, with exception of the present chief.

The schedule is as follows: Chief, \$275; assistant chief, \$240 to \$250; captain, \$235 to \$240; lieutenant, \$230 to \$235; fireman first class, \$225 to \$230; fireman, \$200 to \$210.

Members serving five years or more, at that time, to be eligible to a 5% increase on base pay. The department now has three regular employees.

The commission deemed Chief Will entitled to pay for his services, and placed his salary at \$600 a year, and thanked him for his long and faithful services of past years. Mr. Rubin stated that he felt the city owned him a great debt for his past services, and that he was entitled to remuneration for his future services as head of the department, and the other commissioners concurred in this sentiment.

A group of electricians asked that the city go over its electrical fee inspection schedule, for revision, as these fees were off line, as fees for other electrical inspection work. A study of this question will be taken up and a report made.

Stuart Fishing Manual Out

The 1948 edition of the Fishing Guide, compiled and edited by Ernest Lyons, fishing editor of the Stuart News, and issued through the press of that paper, has been mailed out and is now on the stands for sale.

Lyons, an expert along salt and freshwater fishing, has spared no words in telling of the advantages of the Stuart and Lake Okechobee fishing areas, claimed to be the two best locations in Florida.

Lyons, who knows his fish, has written some mighty interesting stories, and tells of the best haunts of the water denizens, and in the rear of the book gives a list of the type of fish which are to be taken by anglers, along with their names, habits and eating qualities. The Herald acknowledges the receipt of a complimentary copy of this useful guide.

Baccalaureate Service To Be Sunday Night

The Baccalaureate service for the graduating class of the Belle Glade High School will be held Sunday night June 6, at 9 o'clock in the Auditorium.

Friday June 11, graduation exercises will be conducted in the Auditorium at 4 o'clock, and students will depart to their homes.

Monday June 14 for their report cards, according to an announcement made by Principal Frank Hobson.

The Baccalaureate program will be as follows: Processional, "War March Of The Priests" played by Mrs. Gloria John Smith; Invocation by the Rev. J. W. Coleman; Solo, "The Green Cathedral" sung by Miss Gloria John Smith; Benediction by the Rev. J. W. Coleman; "The Lord's Prayer" sung by David I. Stoddard; Benediction by the Rev. J. W. Coleman; Recessional, "Pomp and Circumstance" played by Mrs. Gloria John Smith.

Haymans To Maryland

Lee Hayman, of the Pioneer Growers, and family are leaving Belle Glade for Salisbury, Md., where he will again be active in the Maryland-Jersey crop movement.

Summer Band School To Be Organized

Mr. Howard R. Payne, director of the school band, will conduct a summer band school for the benefit of students desiring further study and training. Classes will be organized as soon as the school term ends and will be continued for six weeks.

Parents interested in enrolling their children, or having beginning tests, may see Mr. Payne at the school.

Pharmacists Agree On Store Closing Program

The four pharmacy operators of Belle Glade, Murphy's, Lot's, Sullivan's and Glades Pharmacy, have come to an agreement in regard to summer and Sunday closing hours.

Agreement is that one dealer only will be open on Wednesday afternoon and Sunday, rotating in turn. This agreement is of mutual profit to the operators, and the public, as patrons can secure service on these days, which has not been possible in past summer seasons.

Third Primary Election Being Held Today

The third primary for the election of a nominee for Judge of Supreme court, is being held this Friday, all over the state. To choose between the candidates, Attorney General Tom Watson and Judge Frank Hobson, of St. Petersburg. Expectations are for a tight vote in comparison to the vote of the two former primaries.

Liquor stores in Belle Glade will not be closed, as investigation on the part of the Attorney General, that Florida does not have at present, and has not had since 1935, such a statute requiring liquor vendors to close on election days.

In view of this opinion, read by Solicitor Beck, and upon the opinion of the dealers that they be permitted to remain open this Friday and agreement between the commission, such permission was granted.

Rebuilding Farm Highway

The county Road Department is now busy rebuilding the farm road which runs from Vinegar bend to Okeelanta, which was seriously damaged by the hurricane floods of last October. The road is being improved upon specifications in width and rock base and coverage.

Some of the work was halted from the Belle Glade pit, other taken from roadside deposits, and a new drainage canal established.

While blasting in hard flint rock, Tuesday, a Mr. Mackey of Lake Harbor, was struck on the hand by a piece of rock and was seriously injured, requiring surgical services.

Prisoners Given Added Term
James Carl Walker and Robert Huns, colored prisoners at the State prison here, life prisoners for rape and murder, who made a recent escape from the State prison Wednesday, in court, were sentenced to an added year of service, which removes them from possibility of a future parole.

Chamber Reports Membership Delinquencies

The Chamber of Commerce is quite concerned over the slowness with which 1947 members are paying in the current year membership fee. Some 60 members, 45 from Belle Glade, have as yet failed to kick in with 1948 dues. Some projects on tap are held up because of lack of funds to finance same. Requests are made that delinquent members take care of this important matter as soon as possible.

Glades Chevrolet Co. Awards Building Contract To Don Hillier And Son

The Glades Chevrolet Company, on Wednesday morning received five contractor's bids for the erection of its new building on South Main street, and awarded the bid to Don Hillier and Son of Pahokee, who will begin construction work on the building within ten days.

The structure will be one story high, of concrete and steel construction, 108x110 feet, and will occupy all the company's land, except the north 25 feet facing Main and Second street. It is estimated that it will require four months for construction.

The new building when completed will present spacious sales room office department,

parts division, and the rear for garage purposes, and will be a modern and attractive structure for that portion of our centralized business section.

The Hillier firm is well known in Belle Glade, some of its construction work being the City Hall, the High School building, the Hugo Hecker, Collins Furniture store block.

Invalid Improves
Carl Boatright in receipt from his wife at the State Sanatorium at Orlando, that of late she has been making surprisingly rapid progress toward recovery from her malady. Mrs. Boatright has been a patient there for the past two years.

Dependent Children Are Problem To State Welfare Board

With an unprecedented number of Aid to Dependent Children applications continuing to be received, the State Welfare Board has found it necessary to take immediate action changing its policies so that every resource within the family group be used in order to stay within funds appropriated until the next session of the Legislature, the District No. 10 Welfare Board was advised by Mr. Emmet Safay, chairman.

It was further stated that the present high cost of living, which is having a disastrous effect upon persons with limited or no income, is causing many families to seek assistance from the State Welfare Board as the only means of providing the bare necessities of life. As a result of the large number of applications being approved for Aid to Dependent Children, more than 18,000 families would be placed on the rolls during the month of June. This is the maximum number which can be carried during the next fiscal year at the present average grant. "Under the circumstances the State Welfare Board found it necessary to either further restrict its eligibility requirements relating to parental support and care or withhold approving any more applications regardless of need," Mr. Safay stated.

The Board recognizes the fact that the present average grant will not meet one hundred per cent of the minimum need of Aid to Dependent Children families and for this reason first consideration should henceforth be given to families that have little or no available resources," Mr. Safay concluded.

Some of the 75,000 ABC Pins Get Ready to Travel

Did you know that rules of the American Bowling Congress call for daily replacement of the bowling pins on its 40 tournament alleys? This means some 75,000 new pins are used in the course of the event. The picture shows some of the pins.

OBSERVATIONS
Continued from page 1

John Kirk, your friends out here in the Glades, are mighty proud of you and the race you ran to win your deserved seat on the high sheriff of this county. Palm Beach county has not been made the rendezvous of gamblers, even if Broder and Dade counties voted to let the big operators in there.

After Judge Tedder found out that he had been defeated, he met his successful opponent in front of the Murphy Success, extended his hand and congratulated him on his success, and stated that he would aid him to get acquainted with the duties of the office in January.

In no political campaign held in Palm Beach county, there has been such dirty politics unbecoming as there was in the 1948 primaries, especially in the run-off. The less of that kind of dirt the better the electors will like it. The attempt to besmirch Belle Glade was unequalled for and not much, but it was a disgrace to the population and election officers.

The average age of people has been increasing for many years. In 1900, according to statistics, a young man of 18 had fifty-one children in one hun-

dred of living to the age of 65. Today, according to life insurance statistics, a young man starting his working life at 18 has fully two chances out of three to live to his retirement age of 65. The chances for older men are good, too. Today a 48-year-old man has a 70 per cent chance of reaching the age of 75 and the chances of a 55-year-old man are 78 in 100. Women have even better prospects. The women of 45 has better than 80 per cent chance of reaching 65, while the women of 55 has an 89 per cent chance. In addition, according to life insurance statistics, white men who reach 65 may expect to live an additional 12 1/2 years while for white women there still remains a probable margin of 14 1/2 years.

During one stage of the work in the Scottish Rite Consistory, candidates who have not yet been initiated are given an opportunity of making their wills for filing in the archives of the Consistory until such time as they may be used in estate settlements. This act is asked so that the member may protect his own and family interests. Records show that many estate squabbles have been settled, because of these wills being filed, and in the manner stated, and turned over at the proper time.

School children are going to have an opportunity to improve themselves along music lines as Band Director Payne, is to spend a portion of the summer here giving direction to classes. This is a part of the new educational program, since teachers are under full time employment.

The city manager plan of city government was tried for a year here, but a new

board of commissioners took office, the manager resigned, and no successor was named, and the scheme failed. Present developments in city affairs might indicate that the change was not so favorable for the city, even though the act was done as a reduction in city expense accounts.

Lots of interest shown at the Cattle Field Day at the Experiment Station by the several hundred attendants. They learned a lot about grasses, stock feeding and breeding and pasture culture.

As the result of the special election for member of the Supreme Court, Tom Watson, Sr., attorney general, held the tick-off by a large margin but which will be far more commodious and comfortable than the former arrangement.

Ladies Enjoy A Bassinette Party
Mrs. Tommy Lanier, Mrs. Bernice Nall, and Miss Mary McCann of South Broward, were the guests of honor at a stork shower on Thursday honoring Mrs. Judy Sullivan at the Lanier home in Belle Glade.

The house was charmingly decorated for the occasion with roses. A bassinet heaped high with lovely gifts was presented to the honoree.

Guests were entertained with games and contests. First prize was awarded to Mrs. D. H. Worth of Belle Glade and second prize to Mrs. Loraine Worth of Clewiston.

Swatches, cake, coffee and cakes were served by Mrs. Carlisle Redish, Mrs. R. C. Converse, Mrs. R. R. Walker, Mrs. Sullivan and Mrs. Doyle Worth of Clewiston, Mrs. Lucy Gregory of Chosen, Mrs. M. E. Whitman of Lake Worth, Mrs. C. L. Royal, Mrs. Jack Rasky, Mrs. Helen Smith, Mrs. Claude Williams, Rhea Tatum, Mrs. W. P. Deriso, Mrs. H. S. Sewell Jr., Lamar Sales, Mrs. J. S. Brannen, Mrs. S. A. Allhands, Mrs. E. D. Humphries, Mrs. C. L. Hollingsworth, Mrs. O. W. Harrison, Miss Betty Roberts, Rosemary DuBois, Mrs. Quinn Shiver, LaDanne Torrence, Mrs. S. A. Roberts and Mrs. James E. Caldwell Jr., all of Belle Glade.

BEEMAN
(Continued from page 1)

gathering swarms and hives over a wide area of the Glades. During war years sugar was scarce and rationed, and there was a great demand for sweet commodities, especially honey, which was bringing high prices, and this induced Mr. Markham to enter the field.

Prior to last fall's hurricane he had around 1200 "scaps" of bees kept in the fields, depleted by the storm, from which he gathered large amounts of honey, graded according to what type of flower from which the bees were gathering the nectar.

In the picture which illustrates this story, Mr. Markham is shown in a new suit for him, which it took several years to work up to attempting. Here his naked body is covered with more than a 100,000 bees, not a one of which stung him or attempted to raise a bee insurance. He says he had to study the bees and coax them into a certain mood, before he attempted his successful stunt.

When he was ready to "shake" the bees, he gave a sudden twist, and they all fell off to the ground, and later were placed in hives.

Mr. Markham states that a bee hive has always had a curious and he was intrigued to see what went on inside a hive, as well as to study the habits of the bee. He is of the

opinion that bees do not identify their handlers from other individuals but whoever does the handling must be calm and unhurried so as not to disturb their tranquility. Excitement stirs them up into a ugly mood.

The life of a common honey bee is around 90 days, that of a Queen bee around three years. A queen lays around approximately 3,000 eggs a day during the brooding season. A queen and a Drone mate only once and that in the air, and then the drone fly the comb and dies. The working bees of each hive, prepare a certain honey food, or bread, for the queen, another type for the building of the comb, and the feeding of baby bees. During their lives bees fly equivalent to twice around the world to produce one pound of honey.

Without bees to plant fertilizer pollination purposes there would be no flowers, fruits or vegetables. Within 5 years time it would be impossible to grow food crops to sustain the earth's population.

The writer asked Mr. Markham how it felt with bees on his naked body, and replied, "Rathed scratchy, as each bee has eight legs attached to its body and there are two sharp projections, that produce a very creepy condition to the flesh, and make a little itching of the skin."

Stealing hives of bees is not an uncommon thing, and very frequently Mr. Markham finds things around his property, that indicate stealing has been done or attempted. Last week he found one location where some parties had placed a sheet over as "scrap" ready to remove, but had been attacked by the bees. In this location he picked up a collection of a sheet, a shirt, a pair of shoes, gloves, hat and head net and the grass was all trampled down, and a lane leading off where the marauders had been chased to their vehicles.

Mr. Markham states that while he is not the official bee man of the Glades, yet, if there are bee swarms, that if notified, he will come and remove them. Bees swarm when a new queen is released from a hive.

One of the sheriff candidates showed his bravery by placing his placard in one of his bee yards. Markham says "King Solomon, fed his wives on honey, and nectar."

Former Editor And Movie Chain Operator Dies
Mrs. Mary Hayes Davis, a former northern newspaper woman, before coming to La-

belle, in 1920, and who later owned and edited the LaBelle News, and operated a chain of movie theaters in the west coast cities, recently died at her home in Ft. Myers, at the age of 62 years. She was indeed a business pioneer in Hendry county, and added much in the building of LaBelle and the county.

Her funeral was held at the Catholic church, and was largely attended by her former friends and business associates.

Brickley Back For A Visit
Warren Brickley, former local politician, drove down from Georgia home, to spend a week here in Belle Glade, and for the purpose of receiving the degrees in the Scottish Rite at Lake Worth.

Brickley states that Georgia has an unusual heavy crop of huckleberries, and that he packed his larder with several hundred canned quarts of the delicious pie and sauce material. He is also enjoying the fine fishing that is available in the streams and lakes in the vicinity of his home town.

When the bottle says Grapette

It's a thin, crystal-clear, quick-chill, sterilized bottle filled with lush, ripe flavor and delightful aroma—that's the real, the only Grapette. Rich in dextrose. Sparkling with mellow carbonation. Ask for it by name. Say:

"A GRAPETTE, please!"

South Bay Boy To Attend Red Cross Convention In West

Willis Warren was honored at a going away gift party Saturday evening at the South Bay Recreation Hall. He was selected as one of three delegates from Palm Beach County to have a free trip to the Junior Red Cross Convention at San Francisco, in June.

The Hall was decorated to represent a barn with red and yellow streamers leading to corn stalks. The young men came dressed in dungarees and the girls in print dresses. The guests were entertained with games and dancing. Many attractive and useful gifts were presented to Willis.

The Hostesses were Miss Ruth Warren, Mrs. W. W. Ferguson, Mrs. J. C. Warren, Miss Kathryn Cook and Miss Marlene Walker.

Home made banana ice cream served in cones, cheese on crackers and soft drinks were served to Hoch Cooper, Phillip Phillips, Alton and Howell Goodbread, O. D. Martin, Howard Woodham, Dorine Mathewson, Junior Walker, Mary Alice Kendall, Jesse and Donald Barnes, Carol Ellledge, Martha Ratley, Mr. and Mrs. Dick Miller, Carroll Warren, Bill Ferguson, Kenneth Warren, Inez Register, Virginia and Bertha Davis

and Mrs. J. W. Warren of South Bay, Mr. and Mrs. Bill Blackwell of Bean City, Pug Starling of LaBelle, Warren Howell of Clewiston, Mr. and Mrs. Shorty Shiver of Belle Glade.

Training Class Party

The Young Peoples Training Union was entertained at a party Friday evening by Mr. and Mrs. Wayne Ellledge. Miss Martha Jean Ratley assisted with the games.

Sandwiches, cookies and soft drinks were served to Mrs. Mary Alice Kendall, Miss Bertha Davis, Don Barstow, Junior Walker, Hoch Cooper, Howard Woodham, Hollis and O. D. Martin, Kenneth and Willis Warren, Richard and Charlie Byrd, Calvin Walker, Howell Goodbread, John Ellison, Jesse and Donald Barnes.

Honors Son's Birthday

Mrs. Mallie Fay Walker entertained a group of tots Tuesday in celebration of her son Roger's birthday. Games suitable to their age were provided for the amusement of the young guests.

Light refreshments were served to Roger Walker, Junior Cumpston, Johnny Willis, Danny Shiver, Cecil Byrd, Mary Mathewson, Billy and Sue Miller, Jeanie and Ginger Chirchfield.

Generous People Aid In Gifts For Recreation Center

The South Bay Community enjoyed their fourth buffet supper and dance at the Recreation Center Tuesday evening and report that the number of those in attendance is steadily increasing and everyone reports a delightful evening of fun.

Mrs. Marvin Miller reports that N. N. Stirling has donated 80 loads of muck to make the fill on the Recreation Center lot. Attorney Jack Johnson,

town attorney, has donated for the gas for hauling, and the hauling is being donated by Hoch Cooper, Kenneth Warren, Alton and Howell Goodbread.

The community dances for young and adult are conducted each Thursday evening with the Breakfast Hour Radio String Band furnishing the music.

Scouring For New School Site In South Bay

The South Bay Chamber of Commerce at their regular Friday night meeting again discussed the school question with particular emphasis on the site and amount of acreage to be secured for the new school building.

The committee reported donations to the amount of \$50 for a dusting fund for mosquito control by DDT dusting of the townsite. It was decided to contact the Town Council with a view to working with them on this project and a committee consisting of Bell Ferguson, Tommy Weathers and Roy Boots appointed to meet with the Council to this end.

A LETTER TO THE PEOPLE OF THE LAKE OKEECHOBEE SECTION

During Ed Wilson's short stay in Belle Glade as manager of Lindsley's Lumber Yard, he made an outstanding record. So good was this record that he has been promoted to the management of Lindsley's West Palm Beach Yard.

The West Palm Beach Yard is one of our largest and offers opportunities available only in larger cities. We feel that you'll be glad that we have recognized Mr. Wilson's ability and have given him this promotion.

To the vacant management in Belle Glade, we have promoted Charles Stephenson. We are confident of Mr. Stephenson's ability to give you the same friendly attention you've always found at Lindsley's.

The folks of the Lake Region have been kind to us and we intend to keep our Belle Glade Yard operating in such a way that we show and prove our appreciation of your kindness.

Very truly yours,
LINDSLEY LUMBER COMPANY

**ONE STRIKE and he's OUT--Forever!**

It was a game of "one-o-cat" on a city street and Mickie was at bat . . . The driver of an oncoming car saw the play . . . sounded his horn and was driving cautiously through. One last pitch . . . the crack of a well-hit ball . . . and Mickie ran. . . It wasn't the driver's fault, but Mickie was OUT...forever!

Children playing in the streets of the Nation's cities and towns added 3,296 to the death toll charged against motor traffic accidents last year. Even the death of two little children is two too many young lives to be snuffed out that way. 3,296 is tragic!

The schools of Florida are continually teaching traffic safety and warning against the dangers of the highways. Parents should emphasize it in the home. Drivers should exert extra precaution in passing schools or going through designated play areas.

Our children's lives are precious. Do your part to prevent the youngsters being struck down — and OUT!

Mr. Motorist—
